Hi Stephanie,

Thanks for including us in the workshop. Cindy Roberts will plan to attend next week.

On another topic, I understand from the Marcellus Shale Coalition that API is conducting its own study of the impacts of hydraulic fracturing on drinking water. We would very much appreciate it if you or the appropriate contacts at API would provide information regarding the scope and approach of your study. Is a study plan available? Please let me know who I might contact to arrange a meeting on this topic.

Best,

Jeanne
